

# Download Telecommunications And The City

The Office of Telecommunications & Regulatory Affairs (TARA) provides consumer protection, access to information and communications technology resources and infrastructure, and generates revenue to support City services. With over 60 undergraduate degree courses on offer across five specialist Schools, City has a wide range of undergraduate study options for you to choose from. For over 30 years, TEA has provided telecommunications facilities management for law enforcement, EMS, and Fire Departments. Specializing in systems integration, TEA is contractually responsible for dozens of E911 dispatch centers, hundreds of base station radios, and close to 100 fire station ringdown systems in northern California. GTA ANNUAL EVENTS FEBRUARY, 2019 22nd Annual Vendor Showcase February 19-20, 2019 (Tuesday & Wednesday) Marriott Macon City Center Macon, Georgia, Telecommunications And The City.
