A set of worksheets for children to balance equations with addition and subtraction. Children have to write 2 numbers in the equations to complete them. 20 1-digit questions, 30 2-digit and 3-digit questions. Investigate how torque causes an object to rotate. Discover the relationships between angular acceleration, moment of inertia, angular momentum and torque. Each group is given a long paper strip of DNA, a 3-page story of the missing necklace and directions on how to fingerprint and sequence their DNA. Scissors act as the restriction enzyme, cutting the DNA between every GGCC into varied length segments. As the segments are pasted into the correspondi... Add an extra dimension to teaching Order of Operations with this fun, hands-on activity that your students will LOVE. Write an answer from the key on the board and then have students place the game pieces on the number strips to make the equation that equals the answer.
