

Download High Blood Pressure Netdoctor

High blood pressure is a major cause of heart attack and stroke, but most of us don't even know the facts. Dr Roger Henderson gives the low-down on everything you need to know about blood pressure. Clexane injection contains the active ingredient enoxaparin, which is a type of medicine called a low molecular weight heparin. It stops blood clots forming inside the blood vessels. Blood clots ...A gynecological disorder may impede blood flow from the legs to the heart, leading to swollen ankles at night that appear normal by morning. Ovarian cysts or uterine fibroids can restrict blood flow and press on your bladder, leading to increased urination. As spring kicks into high gear and summer isn't far behind, most women feel the pressure to have picture-perfect legs for baring in shorts and skirts., High Blood Pressure Netdoctor.
