

Download Silver Solution For Burns

Colloidal Silver for Burns Burns are damage to tissue that can result from exposure to extreme heat, chemicals, electricity, or radioactive material. Silver -- colloidal or ionic silver, silver in solution -- is a potent antibacterial product. Using silver to treat burns is actually a good way to test the overall quality of your silver. Some silver products are so diluted that they will not have any effect at all, and thus will be unlikely to help thwart any infection either. Premium silver solutions are truly miraculous, and silver's better-than-steroid effect upon burns is one of the qualities that compel its use in orthodox ...Structured silver liquid can be sprayed on the burn or used to soak the burn, and the gel can be applied to the wound where a significant reduction in pain, inflammation and tissue damage will be visible in the first hour. Often burn wounds are so painful that you will want to spray on structured silver liquid or use a silver gel that has an aloe mixed with it to help with the pain. The gel ...Silver sulfadiazine (SSD) is a topical antibiotic used in partial thickness and full thickness burns to prevent infection. It was discovered in the 1960s, and was the standard topical antimicrobial for, Silver Solution For Burns.
